Two-year technical degree, 2026

Economics and Social Administration
First year passed, Université Clermont Auvergne, 2022 - 2024

French Baccalauréat, Management and Finance
With honours, 2022

CERTIFICATIONS

Google Cybersecurity Professional Certificate
Coursera, 12/2023

Cisco Networking Academy, CCNA track
ITN, SRWE and ENSA modules, 2024 - 2025

LANGUAGES

French
Native

English
Comfortable writing and speaking (B2), TOEIC planned for early 2027

INTERNSHIP
APRIL TO JUNE 2027
FRANCE OR ABROAD

EXPERIENCE

IT support technician, work-study — 09/2025 - 09/2026

XEFI Ingénierie Auvergne (IT services company), Clermont-Ferrand, France

- Helpdesk and on-site visits for clients mostly in healthcare: medical laboratories, pharmacies, clinics
- Some days, the only technician at the branch, handling all support
- Seconded for 4 months to a client's laboratory site, often alone on site: installed a switch, traced a tube-sorting machine with no network down to the faulty port, then brought it back online with its vendor
- Every morning, checked dozens of overnight Veeam backups: diagnosed failures, escalated them
- Active Directory accounts, workstation migration, server setup, firewall rules, EDR deployment

Summer jobs: delivery worker, grocery store assistant — 2023 - 2024

PROJECTS

Active Directory audit and hardening — WORK-STUDY, PRESENTED 2026

Lab replicating a healthcare client's directory: 4 weaknesses found with PingCastle, fixed following ANSSI (French national cybersecurity agency) guidelines, then every fix checked by a second audit. The risk level went down.

TOOLS Active Directory, PingCastle, GPO, Centreon, Proxmox

Home automation homelab — PERSONAL, ONGOING

Self-hosted Home Assistant server on a refurbished mini PC: Thread network, Matter devices, air quality alerts.

TOOLS Home Assistant, Matter, Thread

Stormshield company firewall — UNIVERSITY, YEAR 2

9 labs with a partner: NAT, filtering, alarms, VPN for remote staff. I wrote my own test guide, with the command to run and the expected result for every rule.

TOOLS Stormshield, NAT, SSL VPN, LDAP

MonCoffreFort — UNIVERSITY, YEAR 2

Digital vault in Java: encrypted documents (AES-256-GCM), protection against SQL injection.

TOOLS Java, SQLite

Personal apps — PERSONAL

Training tracker (Flutter), goal tracker (Firebase), budget tracker (Excel, VBA).

SKILLS

SECURITY	Stormshield firewall, SSL VPN, Active Directory hardening, PingCastle, EDR, penetration testing
SYSTEMS	Windows Server, Active Directory, GPO, Debian, VMware, Hyper-V, Proxmox, Veeam, Centreon, Apache, Bind
NETWORKING	Cisco (VLAN, STP, OSPF, NAT, ACL), IPv4 and IPv6, Wireshark
CODE	Python, Bash, Java, SQL, HTML, CSS, JavaScript, Flutter, Git

INTERESTS

TRAIL RUNNING
Completed a 42 km race

WEIGHTED CALISTHENICS
Rings and parallel bars

ACCOUNTING
Preparing the DCG, a French accounting degree
